

## **General Remarks on the Appendices**

## *General Remarks on the Appendices*

The partial Environments in the following appendices are more finished than the Environments you will develop for yourself. The reason is that I needed to make them understandable to students who may not be familiar with the subject matter. Your Environments will no doubt be briefer, and have far more references to page numbers in textbooks, particularly to theorem statements.

In the interest of brevity, I have included only a few of the items referenced by underlines. In your own Environments, of course, all the referenced items would be present.
